Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Agreed that if the claims were somehow amended to limit the meaning of "configuring" the performance management tools to changing the execution and/or behavior of the tools in a manner that differs from the "configuring" of Kutcher, that the claims would then likely distinguish over the references as applied. Also agreed that the feature of "discovering hardware devices," such as reflected in the proposed amendment to claim 12, would likely distinguish over the references as applied. The examiner asked that Applicant's representative indicate where any such amendments to the claims are supported in the specification. Applicant's representative plans to file a request for continued examination in response to the last Office action.
